December 2010

Public Opinion Survey
West Feliciana Parish, Louisiana

ABOUT THE POLL

This poll was developed and conducted by Southern Media & Opinion Research, Inc. The poll was designed to address West Feliciana Parish, Louisiana, voters' perception of conditions in West Feliciana Parish, awareness and opinion of local tax situations, geographic shopping patterns, and voter opinions on attracting new business and industry to the parish.

Interviews were completed by telephone with 400 voters in West Feliciana Parish, Louisiana. The interviews were conducted from December 1, through December 4, 2010.

The overall margin of error for the statistics obtained from the survey data in the sample of 400 voters is not greater than plus or minus 4.7 percentage points at the 95% level of confidence. In other words, there is a 95% certainty that the statistics presented for the results obtained on this survey are not more than 4.7 percentage points above or below the figure that would have been obtained if all of the voters in the parish would have been interviewed.

The sample error may be larger for subgroup responses, such as those based on respondents by area, age, and other demographic and attitudinal variables. There are other sources of potential error which cannot be calculated including question wording and order of question presentation.

Telephone numbers were drawn from a listing of voter households in West Feliciana Parish, Louisiana.

A quota ensuring nominal male voter participation in the study was imposed. A statistical weighting procedure was employed to normalize the sample to the voter population based on voter sex and race. The percentages shown in the tables are weighted. Counts within tables are unweighted counts.

FREQUENCY RESPONSES—WEIGHTED BY SEX AND RACE SAMPLE SIZE (n=400)

SMOR 3133 West Feliciana Development Survey
November 30, 2010

Hello, this is (interviewer's name) calling for Southern Media and Opinion Research. We are calling West Feliciana Parish voters on behalf of the West Feliciana Economic Development Committee to get their opinions about conditions in the parish and what needs to be done to make the parish a better place to live.

1. Are you registered to vote in West Feliciana Parish? (If no, ask to speak with a registered voter) YES..... 100.0
(NO/DNK/WS)..... TERMINATE
2. How many years have you lived in West Feliciana Parish? 5 YEARS OR LESS..... 10.6
6 - 10 YEARS..... 10.6
11 - 20 YEARS..... 22.5
21 OR MORE..... 54.7
WON'T SAY..... 1.5
3. Would you say that West Feliciana Parish is an excellent, good, not so good or poor place to live? EXCELLENT..... 42.5
GOOD..... 51.3
NOT SO GOOD..... 4.6
POOR..... 1.2
(DNK/WS)..... 0.4
4. Do you think economic conditions in the Parish are getting better, staying about the same or getting worse? GETTING BETTER..... 18.4
STAYING ABOUT THE SAME. 51.8
GETTING WORSE..... 24.6
(DNK/WS)..... 5.2
5. Do you think the amount of (insert type of tax) revenue the parish collects is going up, staying about the same, or going down?

	GOING UP	STAYING SAME	GOING DOWN	(DNK /WS)
a. property tax	63.6	22.7	4.5	9.2
b. sales tax	37.4	43.0	9.9	9.7
6. The River Bend Nuclear Plant is the largest property taxpayer in the parish. Do you think the amount of taxes received from the plant is going up, staying about the same or going down? GOING UP..... 12.2
STAYING ABOUT THE SAME. 26.0
GOING DOWN..... 30.3
(DNK/WS)..... 31.5
7. The nuclear plant accounts for two-thirds (66%) of the parish's property taxes. The amount of taxes the nuclear plant pays is going down. In order to make up for the decreasing tax revenue from the nuclear plant which of the following three options would you prefer:

option one- to cut back on parish services and schools;	6.6
option two- to increase taxes on existing residents and businesses, ..	7.2
or	
option three- to attract new residents and businesses to the parish? ..	78.0
(DNK/WS)	8.2

8. The parish receives a large amount of sales taxes because of the construction of the Audubon Bridge and the four laning of Highway 61. When those two projects are completed, sales tax revenues will go down substantially. In order to make up this loss, which of the following three options would you prefer:
- option one- to cut back on parish services and schools; 8.8
 - option two- to increase taxes on existing residents and businesses, ... 5.9
- or
- option three- to attract new residents and businesses to the parish? . 76.9
 - (DNK/WS) 8.5
9. In your opinion, is it very important, somewhat VERY IMPORTANT..... 77.4
important or not important for West Feliciana SOMEWHAT IMPORTANT..... 15.4
Parish to support efforts to develop our economy NOT IMPORTANT..... 4.6
by bringing in new businesses and industry, (DNK/WS)..... 2.5
creating more jobs, getting new residents
and increasing tourism?
10. Why do you think new businesses haven't located in West Feliciana Parish?

(TOP TEN RESPONSES)

PEOPLE DON'T WANT THEM	28.4
SMALL POPULATION/ISOLATED	14.0
DON'T KNOW/WON'T SAY	13.5
SELFISH POLITICIANS/INEPT GOVERNMENT	11.1
BUSINESSES HERE DON'T WANT THEM	8.8
LANDOWNERS OPPOSED TO CHANGE/LAND NOT AVAILABLE	8.3
OTHER	7.5
NOT TRYING/NOT EFFECTIVE	6.1
RESTRICTIVE/ZONING RULES	4.5
LACK OF INFRASTRUCTURE	3.7

11. Do you favor or oppose the development of new businesses and industry and the creation of more jobs in the parish?
- FAVOR..... 89.1
 - OPPOSE..... 6.0
 - (DNK/WS)..... 4.9
12. In your opinion, are there enough stores and businesses in the parish to meet the needs of people who live in the parish?
- YES (SKIP TO 14) 23.2
 - NO..... 71.7
 - (DNK/WS) (SKIP TO 14) 5.1

(TOP TEN RESPONSES) (n=279)

13. What type stores and businesses are needed to meet the needs of the people who live in the parish? (DO NOT READ)
(RECORD UP TO FIVE RESPONSES)
- WALMART..... 52.4

SMOR 3133

Responses to the Question (Q10):

“Why do you think new businesses haven’t located in West Feliciana Parish?”

ID **RESPONSE**

- 1 Land is so expensive. There has been some opposition to larger chain stores.
- 2 I do not know that.
- 3 People don't want them.
- 4 We only have 5,000 residents.
- 5 We don't have stores to buy shoes and clothes. We need a big shopping center.
- 6 The police jurors don't want big business here.
- 7 They have too few stores here. If they brought in Wal-Mart and shopping stores, it would affect the smaller stores, but it would make more variety of stores to shop at.
- 8 That would be because they give them a hard time. People are trapped into buying from small businesses.
- 9 Everybody wants no changing.
- 10 Some of the residents have fought against business coming in.
- 11 I have no idea.
- 12 They haven't located in west Feliciana parish to keep the small businesses in operation and also their unique way of living.
- 13 Too many big businesses don't want to be here. They want to keep it a small town.
- 14 If we had lower taxes, then it would be a good community to do business in, and it is probably cheaper to locate there.
- 15 West Feliciana parish has a low population, difficult terrain, and little access to the river and other traffic freeways.
- 16 That would be because of the dumb historical thing. I live in the historical district, and it is a joke. They have a few old houses here and they won't let us do anything. It really is a joke. If they could only go to north Carolina and see the historical places, it would be better. I had nine yards of bull putting up a fence.
- 17 A lot of land has been owned by families for generations and they are very opposed to change.
- 18 I am not sure why there aren't any.
- 19 I don't think we are trying to get them here.
- 20 This is a bedroom community.
- 21 Taxes are too high. They are higher here than in baton rouge.
- 22 It has to do with something else besides tourism.
- 23 They resist change. Like for big box stores, they don't want those here. They want it to remain like a small town.
- 24 We have an aristocratic black system that shoots things down. For most of the things we get, people shoot those down. Even our new bridge, they tried to change it but nothing remained. A bunch of people think they can run things and ruin it for the rest of us.
- 25 I don't know.
- 26 It is because of politics. Everyone says that politics are so awful that they are moving out of here. You can't even buy a piece of property that zones in a certain way without getting special permission. It's very commercial. The politics are unbelievable. They have voted themselves to double their pay.
- 27 It is because of the value of the property and the cost of it.
- 28 It is probably because of the historical fighting.
- 29 There is nothing to offer.

SMOR 3133

Responses to the Question (Q10):

“Why do you think new businesses haven’t located in West Feliciana Parish?” (continued)

ID RESPONSE

- 30 It is because of the police jury, rules, and regulations of a small town that has a history of a small number of people running the town and not letting anything come into this town.
- 31 It is somewhat isolated. The bridge should help. There are longtime residents who are somewhat resistant to change.
- 32 They do not do a really good job of attracting people and businesses to come here to west Feliciana.
- 33 A lot of the land is not available.
- 34 We are too close to baton rouge.
- 35 There are some people here who don't want them to come.
- 36 There are some people who are against having business, like Wal-Mart coming in. We don't want to see the small business that we've supported all these years closed.
- 37 This is an old property. A lot of the older families still own the old property.
- 38 The new four lane highway construction slows down the traffic.
- 39 It is because of all of the crooks in office.
- 40 I don't know.
- 41 It is because of the land prices and values.
- 42 We don't have a leaver market to draw from.
- 43 The road construction has been a pain in the ass for so long.
- 44 We're really not that big of a town.
- 45 The housing cost is pretty high.
- 46 I don't know.
- 47 I don't know.
- 48 There are not a lot of people who want it.
- 49 There are a lot of business that can't come. A lot of people don't want to see the parish grow.
- 50 It's a small town. They don't care for larger businesses here.
- 51 There is no infrastructure.
- 52 They should have more employees.
- 53 I have no idea.
- 54 There is too much opposition from the older residents. They don't want change.
- 55 Every time someone tries, someone else puts a roadblock in the way.
- 56 There are too many personal owners of businesses, and that doesn't attract people.
- 57 They are trying to keep out whoever they can keep out, so there won't be crimes. There are a lot of crimes in baton rouge. I do my big shopping in baton rouge. There are more people down there who can be robbed and stuff. If those people come up here, there will be more crimes and everything.
- 58 I don't know.
- 59 People don't want any new businesses.
- 60 I don't know.
- 61 The people, voters, and police jurors are the ones who decide what businesses should come to the parish.
- 62 They need to use the parish as a tourist place.
- 63 They have a hard time because the historical society will block them.
- 64 There are no incentives, and a fraction of the town wants to keep it undeveloped. They are the ones in authority and with positions.

SMOR 3133

Responses to the Question (Q10):

“Why do you think new businesses haven’t located in West Feliciana Parish?” (continued)

ID **RESPONSE**

- 65 It would be the lack of infrastructure, like the lack of roads in the parish.
- 66 It could be the cost of property.
- 67 The economy would not let anybody do that.
- 68 I wouldn't know the reason why.
- 69 It would be the attitude of the people.
- 70 It would be the local politics.
- 71 It would be on the count of the policy jury because we have a rotten jury.
- 72 I do not know why.
- 73 It is not really a big parish.
- 74 The economy is on the decrease nationwide, so until the economy recovers, there would not be any new businesses relocating.
- 75 They have not been the right kind of businesses, and the residents have voted them out.
- 76 We didn't give them enough tax breaks.
- 77 I have no idea.
- 78 There is not enough population to support the businesses.
- 79 All the people in the small town are scared if the big businesses will come out because it will knock them out of business.
- 80 The powers that be will not allow new businesses to come to the parish.
- 81 All the money is stepping out of the parish, and they want the people making money to keep making money here. They don't want big places like Wal-Mart. It is a monopoly right now because one person owns all the stores already. If you go to one store to look at the price of ground beef, then it is going to be the same price at the store across the street.
- 82 It is historical, and some people don't want things to change. It is kind of anti-development.
- 83 There are not enough people and roads here. All the roads have been under construction for a few years now.
- 84 They have tried, but the police jury and the historical society do not want big stores here. They do not want anything that they do not consider as attractive or a tourist type of plant here. You look at Williamsburg and other places, and they manage to have those places, so I think we can do too. We lose a lot of tax dollars because people do not do much shopping in town. The small stores, like the mom-and-pop stores, serve a purpose and do what they need to do. They will be just fine with the other bigger stores here as well. They will be okay if they just keep doing what they are doing. The people of this parish need more stores though.
- 85 They do not shop locally.
- 86 It would be due to an unstable government.
- 87 There are a lot of properties being owned, and they attempt to keep the growth down.
- 88 The plantation do not want new business. They prefer this charming rural setting and will try to maintain this historic look. They are doing it at the expense of the low income residents.
- 89 They will meet resistance.
- 90 It would be the workforce because not enough people are willing to work.
- 91 The parish has too many restrictions.
- 92 It would be the location.
- 93 The property is too expensive.

Responses to the Question (Q10):

“Why do you think new businesses haven’t located in West Feliciana Parish?” (continued)

ID **RESPONSE**

- 94 The small town's historic atmosphere is significant. It is the major financial contributor to the parish, and tourism will decrease if people will increase.
- 95 Some of the residents here don't want new people coming in.
- 96 It is still considered a small town. We haven't had a McDonald's for very long. The church is part of a gas station, and we have three or four restaurants and quite a few bed-and-breakfast. My honest opinion is that the police jury should take a pay cut and put it back in the fund. They are not the brightest candles in the box, and people would call California and give themselves a raise. We do not have the revenue for that. They need to get a new police jury because they do not have our best interests in mind.
- 97 It is so clannish because the people here don't want outsiders to come in.
- 98 I have no idea.
- 99 It would have to do with the location.
- 100 It is a clique. The people don't want the new businesses coming in.
- 101 They consider it a historical society.
- 102 I don't know the reason.
- 103 They won't allow it.
- 104 New businesses haven't located in west Feliciana parish because of the lack of infrastructure and housing.
- 105 It is too difficult for them to get here. There is too much red tape.
- 106 We have made it too difficult and have sort of shut our doors for them. We haven't been very user-friendly.
- 107 Each and every time they attempt to do so, there is unavailability of affordable land. Some of the businesses have been resisted by residents.
- 108 That would be because of the location and high property value.
- 109 They have not been approached in a proper manner. We had a community development foundation that was supposed to be our development vehicle, and they did absolutely nothing. They got lots of money for years. There were lots of businesses that almost came here, but they didn't because they weren't handled properly.
- 110 I have no idea why they haven't located.
- 111 That is something that can be solved by the freeway.
- 112 We don't need them.
- 113 The reason would be the location.
- 114 All of our population is in St. Francisville, which is only the city. We don't have a lot of small communities to support anything.
- 115 Zoning restrictions is a big part of it.
- 116 Nothing is expanding right now. The Obama administration is stagnating the economy.
- 117 I do not know.
- 118 I am not sure that they haven't. We've just started up a new paper mill that created 200 jobs. There is also a new hotel and restaurant.
- 119 It would be the district and everything else. They have their things but they are out of the city limits.
- 120 The historical society makes it very hard for them to get in.
- 121 It is a small town.
- 122 Affordable housing is a problem. There are uncooperative regulators.
- 123 It is so far out away from everything.

SMOR 3133

Responses to the Question (Q10):

“Why do you think new businesses haven’t located in West Feliciana Parish?” (continued)

ID **RESPONSE**

- 124 It is not about that, but it is a good question. I really don't know but we could have more effort on going out and getting them.
- 125 That would be because of the historical society. They have a tendency to raise all heck when somebody tries to bring something new in.
- 126 The reason would be lack of economic leadership.
- 127 That would be because of our police duty. The behavior of our police officers is a laughing stock.
- 128 The community makes it too difficult for them to set up shop.
- 129 The population isn't such for expenditures and there is not enough population for them to come here.
- 130 We have really good schools but for other things, like shopping for kids, I don't think we have a lot of those things. When people are thinking about bringing families into the area, they look at the schools, but they want other things. Our housing is expensive. That is what people tell me. It has gone up since we moved here.
- 131 It is such a rural area. I don't know if we will attract them because of that.
- 132 I'm not going to say that they haven't done so. They have just built a new hotel. I was told that waffle house is coming into town and also an auto parts place. I didn't know businesses are here, but I know the hotel is almost finished.
- 133 It is very hard to get businesses because of all the rules. They don't want big box stores and others.
- 134 They are a bunch of old people.
- 135 I am not sure about that.
- 136 There are no people here to support an industry, and there is no support for infrastructure.
- 137 I have no idea.
- 138 There is no entertainment here.
- 139 We are kind of out of the way.
- 140 The land prices are too high, and without any businesses, the people would not come.
- 141 I really don't know.
- 142 I do not know.
- 143 It would be due to the inflated property value.
- 144 They are not allowed to come to west Feliciana parish because the older residents do not want to change anything.
- 145 They have not allowed it.
- 146 Our police jury and planning committee are making it very difficult, and the land prices are inflated. There is not much supply of affordable property available.
- 147 There is not much other industry here.
- 148 The police jury will not do anything to get new businesses. They want it to stay as it is.
- 149 It would have to do with the property values. They have to find property to build their business on.
- 150 The old regiment areas have been against any changes.
- 151 I do not know the reason why.
- 152 I am not really sure.
- 153 I do not know.
- 154 It would depend on the kind of business and the size of the population.
- 155 The parish do not want to change and to have new progress.

SMOR 3133

Responses to the Question (Q10):

“Why do you think new businesses haven’t located in West Feliciana Parish?” (continued)

ID **RESPONSE**

- 156 The local people who have been around here so long do not want it. They want the historic sites. Those places can stay, but we need the growth.
- 157 From years back, the people who were here were in control of the property. So many of our people say that when the paper mill was built in the 60's, no one could buy any property, so they moved. Now that the property has changed hands and another generation has taken over, they are willing to sell the land, but the prices are so inflated. Most people are not able to buy it, and we are just living out of our means now.
- 158 The people don't want the parish to get too big.
- 159 It could be due to the demographics of the population. Awhile ago, there was some controversy about Wal-Mart.
- 160 We do not have a very strong community development foundation. We do not promote ourselves very well and have a very poor performing police jury that governs the parish that needs to change. The police jury needs to be changed.
- 161 They have a poor parish administration.
- 162 Some have and some will. More businesses will come once the bridge and roads are finished.
- 163 I really don't know.
- 164 The people wouldn't have to go out of town and could do what they wanted to do, like buy stuff.
- 165 We are not having a bridge that connects to other places.
- 166 I cannot answer that one.
- 167 The upper class people don't want them here.
- 168 I really don't know.
- 169 I don't know.
- 170 There is a lack of skilled labor. Also, the parish has not targeted businesses that would be receptive. Instead of hitting home runs, they hit singles and doubles and go for the smaller mid sized businesses as opposed to getting larger plants. As long as we have the government, the police jury and the parish manager in place, there will be a lack of progress and development, and you could take that to the bank.
- 171 It is because of our local government.
- 172 It is too far away from baton rouge. Travel is hard, but with the new bridge, they might start.
- 173 It is due to the attitude of some of the community leaders.
- 174 They haven't been encouraged to.
- 175 They have not located because of the amount of people that are here.
- 176 We don't want some businesses. We don't want the big box stores. A lot of people don't want them.
- 177 Our property values are pretty high.
- 178 There is a lack of a concrete comprehensive plan and proper restrictions.
- 179 I can probably give you three good reasons. Parish journey is not wanting to communicate or deal with any new business, more taxes and conveniences for people, and Wal-Mart. The property here is not available to sell at any reasonable price. I don't think people see much happening to come here and start devolving.
- 180 We lack some infrastructure. They have not been pursued.

SMOR 3133

Responses to the Question (Q10):

“Why do you think new businesses haven’t located in West Feliciana Parish?” (continued)

ID **RESPONSE**

- 181 A lot of it is because of the restrictions that are placed on business by the existing zoning ordinances.
- 182 Dumb politicians are only in it for themselves and no one else. If they can't make any money, then they won't do it.
- 183 There is the unwillingness of landowners to sell, the disarray of the governing bodies, and the lack of growth plan.
- 184 It is a poorly managed parish. The government is corrupt.
- 185 There is probably nowhere to put them.
- 186 I have no idea.
- 187 It is because of the police jury.
- 188 They won't allow them to come in. A lot of whites want to keep it in the family.
- 189 They are not attractive to new business. The representatives for this area and this parish should get off of their butts, out of the old-fashioned ways and into the new world. They have to bring in new jobs and stimulate our economy here in this area.
- 190 Some of the people want everything to remain the same.
- 191 People are afraid of losing the small town way of life.
- 192 That would be with the action of the police jury.
- 193 I do not know that we have offered all the incentives, tax cuts or tax breaks to make it so that there are suitable and affordable properties.
- 194 It has not been made available to them.
- 195 The old guard is hesitant to have new businesses come in. They do not want to change the status quo.
- 196 They make it hard for businesses to locate here. They want to keep it a small town. Until they are willing to open up, the revenues will stay the same.
- 197 All the blue bloods did not want them there. For every time they get someone interested, they find a way for them to not be here.
- 198 The local government is stuck in the dark ages. There is an old-school mentality about keeping businesses down and out.
- 199 The new businesses have not come to Feliciana because of the population growth.
- 200 They have not located here because of the push back they get from these blue blood hillbillies here. They lost the war and need to get over it. They are consistently shooting themselves in the foot pushing away Wal-Mart. From having moved here from outside, it drives us bananas. We did not want to go to Zachary, though.
- 201 That would be because of the police.
- 202 That would possibly be because of the high tax, like the home owner's tax. The taxes we pay are not proportionate to equivalent homes in other areas. We are taxed way more than everybody else.
- 203 We have not given them the opportunity to get in.
- 204 I don't know.
- 205 The older people don't want to change the city.
- 206 I don't know.
- 207 It is because of the smaller businesses like the tourist in Francisville. That one grocery store is owned by one person. If we will get a Wal-Mart, it will cut his business. It can possibly put them out of business.

SMOR 3133

Responses to the Question (Q10):

“Why do you think new businesses haven’t located in West Feliciana Parish?” (continued)

ID **RESPONSE**

- 208 They told us that this parish is historical. They don't want them to touch the history of it.
It is the only way to increase the businesses and the number of residents.
- 209 It is because of a few businesses that we have. We don't want to have new businesses
here.
- 210 It is probably because of the people in the parish and its history.
- 211 I don't know.
- 212 The owners of the school board control everything. They don't want the new businesses to
come in.
- 213 I don't know.
- 214 The people who should have something to do don't have anything to do. They aren't doing
anything.
- 215 The blue bloods keep on fighting it.
- 216 The four lane highway and the bridge are going to help once they are finished. Without
them, the commute is way too long.
- 217 There isn't enough advertising.
- 218 It makes more sense to have a business in a big city like baton rouge. We came here
because it is a small town.
- 219 I have no idea.
- 220 The economic decisions that were made slowed down the growth of the parish.
- 221 The historical society won't let them. They want to keep it how it is.
- 222 They discourage the businesses.
- 223 The police jury doesn't let the people in. It has to be voted on. They seem to not want it.
- 224 It is mainly because of the license issue. There are certain people who fight the new
businesses coming in.
- 225 There are no new businesses and no growth.
- 226 Our historical society won't let the new businesses come here. They are the ones in charge
of preserving the history of the plantations around the parish.
- 227 It is due to the way our political system is. They won't let them bring anything in.
- 228 It is because of the old style of thinking. The founding families of this place don't want it
to change.
- 229 We have had our chances, but some people believe it is destroying the historical
ambiance of the town. There is also the issue of not having enough water and such.
- 230 The whole town is old.
- 231 It is probably because they have been held out.
- 232 West Feliciana parish has not been promoted enough.
- 233 It is difficult to do business here because of all the rules and regulations. The parish does
not help people start their businesses. There are too many factors involved.
- 234 Politics won't let them come in.
- 235 I am not sure, but whatever it is, I would be for it.
- 236 It is such a small town, and there are not a lot of businesses here. That is probably why
they are not coming here.
- 237 I don't know the answer to that.
- 238 The larger businesses haven't been able to get in because the residents are trying to keep it
a small, historical type of town. We are probably fighting it. We don't want Wal-Mart.
- 239 The economy is bad.

SMOR 3133

Responses to the Question (Q10):

“Why do you think new businesses haven’t located in West Feliciana Parish?” (continued)

ID RESPONSE

- 240 It is probably because the people aren't selling lands. They have nowhere to go.
- 241 There are lands, but I don't think that a lot of people are welcoming the new businesses to build here.
- 242 The tourist attraction level is low.
- 243 It is the decision of the police jury.
- 244 I haven't thought about it.
- 245 It is probably because the parish or St. Francisville wants to keep it a small town. They want to keep a quiet atmosphere.
- 246 It is too small for them. We have an uneducated workforce.
- 247 We have some ignorant people living in here. The town is stuck in the 50s.
- 248 Honestly, it is because of the small businesses. They don't want the larger businesses or corporations to come in.
- 249 It is due to not having enough commercial properties and Internet technologies.
- 250 The zoning laws are too strict here.
- 251 The old people want to keep the beauty, but they also want the money. It isn't possible.
- 252 A lot of people don't want them to come. They are trying to keep out a lot of crimes.
- 253 It is possibly because of the bridge. The people who live here have kept the new businesses from coming in because they thought that they would hurt the businesses that are here now. The two big stores that we have are owned by a family here, so they haven't let any other stores in.
- 254 We have too many people who want to be the bosses. There are more people who worry about the look of the parish.
- 255 There is probably not enough traffic and population.
- 256 It is because of the older people who live here. They want the town to stay the same.
- 257 There is a group of people who don't want any businesses here.
- 258 The residents and the businesses don't want them here.
- 259 I do not know.
- 260 The police jury would not let them in. They say it is because it will hurt the little businesses that we have here already.
- 261 I do not know.
- 262 We have too many big landowners who do not want to let lose of their land. There are too many ordinances that do not allow anyone to build anything.
- 263 I do not know exactly. It has something to do with the mayor and the overall development committee of the parish.
- 264 Actually, new businesses have located in west Feliciana parish.
- 265 They just do not want them here. That is why. They have tried to come in but they would not let them like Wal-Mart. That is wrong.
- 266 The large landowners are resistant in breaking up and selling their properties.
- 267 The parish is growing. We need more job opportunities.
- 268 The old white people do not want new businesses to come here.
- 269 It is too difficult to get through the approval process.
- 270 I do not know.
- 271 They fight them at every corner every time they try to open here. We give them no incentives to open a business here.

SMOR 3133

Responses to the Question (Q10):

“Why do you think new businesses haven’t located in West Feliciana Parish?” (continued)

ID **RESPONSE**

- 272 We have an old group of people who are mostly white. They are trying to keep anything new out of the parish. They do not want change.
- 273 There is nothing to attract them.
- 274 The parish has not worked for them to come here. They have tried to come, but the parish said no.
- 275 We are not located in a metropolitan area. We are 45 minutes away from the next major city which would be baton rouge. The taxes are too high. They should have tax breaks for new businesses.
- 276 Landowners would not let go of the land for economic growth.
- 277 There are not a lot of residents or activities here. There is not too much traffic.
- 278 We do not have enough people here for new businesses to come in.
- 279 We have a poor parish government.
- 280 It is such a small town.
- 281 There are not enough businesses here.
- 282 I really have no idea why.
- 283 It has a population of under 10,000 people. The economy has been decreasing. There would be no reason to locate here.
- 284 I really do not have an answer for that. I am hoping that the new bridge and bowling lane will bring more businesses and development.
- 285 It is a difficult process. People do not welcome new businesses here. It is a very closed community.
- 286 The planning and zoning commission do not want anything new. We have old-school people in the parish who want to run the place.
- 287 I have no idea.
- 288 I think it is because of small town politics. It is just a small town where they do not want new things in. There is one person who owns both of the grocery stores here.
- 289 The police jury has no plan for economic development. There is also too much reliance on tourism.
- 290 There is not enough land for sale, and the land that is for sale is overpriced.
- 291 They will not let them in here. The older people do not want a change.
- 292 I do not know.
- 293 It is because of the lack of space to build.
- 294 It is because of the people.
- 295 Property values are over inflated. It is also because of nonavailability of property or land.
- 296 It is maybe because it is so small.
- 297 It is a rule of passion. There is really no railroad service here. We only have two stores here that can charge whatever they want to. It is like they do not have any competition. I think it is one family that owns both stores. It is like the gas stations. There is probably a \$0.02 difference between their prices.
- 298 It is because of the road. Now, they are opening it up. We might change. We are just a small community.
- 299 I do not think they have the structure for it as far as areas to build are concerned. I do not think there is developed land for them.
- 300 It is sparsely populated. There are very few services. There is status quo. The people are resistant to any growth.

SMOR 3133

Responses to the Question (Q10):

“Why do you think new businesses haven’t located in West Feliciana Parish?” (continued)

ID **RESPONSE**

- 301 Parish officials will not allow it.
- 302 It is because of the workforce, high property taxes, and too many regulations on historical conditions.
- 303 We do not attract new businesses because the people who live up here fight everything. They do not want any new growth up here.
- 304 There is too much resistance.
- 305 I do not think they have a lot of infrastructure. The number of residents in the local area are not as high as in other places. The people who formerly overran the parish kept a lot of them from coming in. A number of things has been done to discourage new members. Until the new highway is completed, there will not be enough traffic to support it.
- 306 In some cases, they were asked not to. I went to a meeting, and Wal-Mart was asked not to. Once you have one business that is not invited, other business do not want to come.
- 307 I really do not think anybody has gone out to sell anybody the idea of bringing in businesses. There has not been a real effort to bring in businesses except for tourism.
- 308 People don't want them here.
- 309 There are not enough people.
- 310 It is because the economic development system hasn't worked. They have to bring in new commerce.
- 311 It is probably because they don't want to interfere with the historic district downtown.
- 312 Most of the people who live there have owned that land forever, so they don't want any development coming in and destroying the heritage of the town.
- 313 It is because of the lack of support. The parish is growing, but it takes time when things are growing to catch up. It is important to have adequate planning because this is a small parish with old politics. That affects if businesses want to come here or not.
- 314 They are not wanted by the older residents.
- 315 It is somewhat because of the attitude of some of our citizens. They want it to stay the same as it was 50 years ago.
- 316 It is probably because of the price of land, buildings and everything else up there.
- 317 There are not that many people here.
- 318 It is because of the small number of residents.
- 319 It is because of the approximate location to baton rouge. Otherwise, I don't really know.
- 320 It is because of the population and building restrictions.
- 321 The economy is depressed.
- 322 It is because of the economic development that was in place. They were managing the economic development, but they did not do a good job of marketing the parish.
- 323 The because of housing.
- 324 The demographics of the parish is not conducive to open a business. The total population couldn't support that kind of thing.
- 325 We have someone in town who won't let them come in. They will lose control of the town if they do come in.
- 326 It is because the cost of property.
- 327 The parish doesn't want that kind of growth. We do have McDonald's, etcetera. We depend on the local pharmacy. It closes at 6pm. We need one that could stay open until 10pm. I feel that people here are against big business like super Wal-Mart or target.
- 328 It is too rural and is too far away from the city.

SMOR 3133

Responses to the Question (Q10):

“Why do you think new businesses haven’t located in West Feliciana Parish?” (continued)

ID **RESPONSE**

- 329 They are unaware of the attractiveness of our parish. Our parish government is too concerned with incising and not concerned enough about proactive economic development.
- 330 The reason would be the price of property.
- 331 It is a small town.
- 332 It is too rural.
- 333 There is nothing here, like no work force. There is nothing to attract people to come here.
- 334 We don't welcome them. We turn down a Wal-Mart. It is a big revenue builder. They don't do anything to make the population grow.
- 335 There is not much of infrastructure. There is a long way from anything.
- 336 They are not wanted.
- 337 I have no idea.
- 338 The present police jury has not done enough infrastructure improvement for them to come in. The people do not want it also. When people are going to open a business for millions of dollars, they certainly do not want any opposition.
- 339 It could be due to the distance from here to baton rouge.
- 340 It would be the lack of economic incentive. It has a small population. It has been discouraged by our population and by the preacher. We haven't had any aggressive efforts to develop and have had resistance. West Feliciana is composed of several large land owners who control the real estate in the area, and they don't want to break up their pieces of land. Their land was historically held by their family, and they don't want to break it up.
- 341 All the old people live here, and all the small business owners don't want it.
- 342 Some people don't want business to come in and some want business to come in. It would help the parish if new business will come in.
- 343 We are a rural parish.
- 344 I don't know.
- 345 There is a very low stature of life, therefore they didn't get a lot of people to move here. They want people to be small. A lot of people around here want the place to get bigger. They don't know how sorry they would be if it happens. I had another residence before and they had these principles and everything in the parish. The taxes went high that you couldn't live there anymore. You couldn't ride the streets. They kept bumping each other all the time. That's why I am against the parish to grow too big, it's not to grow too tremendously. Let things be the way they used to be. Don't crowd the place up. Don't start doing many new homes. Up the commerce.
- 346 There is no labor force, no place to live.
- 347 The price of buying a home is so expensive.
- 348 It is because of the infrastructure, number of people that are here, and the roads.
- 349 You are probably talking to the wrong person but having served in the baton rouge chamber board for awhile, a part of it has to do with what companies are looking for in west Feliciana and how west Feliciana has been marketed. The port and business in the mill area need to offer something because there is no unique asset that makes it a salable asset.
- 350 They have never been pursued by the police jury and the town of St. Francisville. They need to get over the small town mindset and pursue new businesses.

Responses to the Question (Q10):

“Why do you think new businesses haven’t located in West Feliciana Parish?” (continued)

ID **RESPONSE**

- 351 They probably not had significant nucleus to spend new businesses historically.
- 352 We don't have households, or rooftops to support a lot of new business. We are a small rural community. It is probably because they don't test our local government. The police jury has to do with it too. They are disorganized and not efficient.
- 353 There are not enough people out here. They can't support the business they have. People today are going to shop where they can get the cheapest prices. We are small and the prices are high. We have to go out of the parish to get lower prices.
- 354 It is probably because of the lack of infrastructure and just the overall economic conditions in the united states.
- 355 It is because of attitudes I guess from the people who are ruling, the ruling residents.
- 356 In this parish, they have been keeping business out. They don't want Wal-Mart.
- 357 The reason they haven't is because of the cost of property to locate here. There is a lack of commercial property. A lot of a people don't want the parish to grow. They like the quiet community atmosphere that is here. It depends who wants the parish to grow. If there is a certain population that wants it to happen or there is a certain population to come here, it will come here. I think we have a problem with signing people for work. It is a lack of employment. I have noticed several places that you go in one day and the next, there are different people. There are not enough incentives to keep people to work. The ones who do work don't work for very long.
- 358 These people in west Feliciana parish don't want any more businesses in here.
- 359 I don't think there is enough middle class population here. The police jury doesn't know what they are doing. It is also about the politics of this parish. We don't have people who know what is going on or how solve our problems.
- 360 We didn't want them to. We didn't want to grow.
- 361 They find better places to put them. I don't really know. I don't get around too much.
- 362 The people in town vote to keep the town the way it is.
- 363 We have old businesses that don't do well. We need some new business like Wal-Mart.
- 364 Some of the old people are so against any kind of modernization. They have given up. We have a historical society that has fought any kind of progress.
- 365 It is because they are stupid. They want to keep us back in the 1800s.
- 366 The mom and pop stores block other businesses from coming in.
- 367 It is because of taxes.
- 368 I don't think the parish is competently run. People can see that whenever they go to the police justice meetings. It is very obvious that it is a very poorly run parish.
- 369 The people are not very receptive. They have the attitude, don't mess up our beautiful place.
- 370 It is a quiet little town. They are looking for more action I guess.
- 371 It is because of the historical value of the town. People didn't want it. They thought it would lower the value of our town. They think it would lower the history with the big box businesses taking up all the space.
- 372 West Feliciana doesn't want to change. St. Francisville doesn't want the parish to change. They want it to stay as a quaint little village.
- 373 I really don't have any idea.
- 374 The demography is low. We need to increase the number of people living here.

Responses to the Question (Q10):

“Why do you think new businesses haven’t located in West Feliciana Parish?” (continued)

ID RESPONSE

- 375 We are landlocked here with no railroad services and ports. The location of the parish is landlocked.
- 376 The reason for that is politics.
- 377 The new businesses are skeptical to locate due to the volume of businesses here. A lot of businesses are opening and closing because of it. When the new bridge opens, it will help the volume. The taxation structure with the legislation is also not helping. I would be skeptical to open a business because of the taxes.
- 378 There aren't enough skilled workers.
- 379 It seems like the same people try and do the same things like opening the same type of business. There is nothing new.
- 380 It has something to do with the people's attitude. They don't want new people.
- 381 It has something to do with a group of people. They are called the historians. They have a lot to say about what is happening in the parish and what would come.
- 382 There isn't enough infrastructure. It is very expensive to build here.
- 383 We have such a limited population.
- 384 Depending on what type of business, there aren't a lot of customer based attractions. They shouldn't change the demographic layout at all.
- 385 I don't think we have a qualified workforce in the parish.
- 386 The taxes are too high.
- 387 There is lack of workforce. They aren't educated enough.
- 388 Having improved roads and the infrastructure that is needed for new businesses to develop would help.
- 389 The dominant white people don't want to change. They are redundant to change.
- 390 West Feliciana does not have the talent to support new businesses.
- 391 We don't have the people. Once they are here, it would be expensive to live here. We also don't have a good transportation and it hurts this area. We aren't big enough to have means of transportation.
- 392 We have had businesses that didn't last long. We also have new businesses that have stayed, so I don't know why they aren't coming to west Feliciana.
- 393 I don't think that the atmosphere is very friendly for businesses.
- 394 It is hard to make a business work and make profit from it. There is lack of local support.
- 395 I don't know. They probably don't want to come here.
- 396 They are thinking that it is going to knock down the rest of the stores, and that they won't have any business if Wal-Mart comes in.
- 397 They don't have a committee to encourage businesses to move in.
- 398 This is a residential area. Businesses need to stay in baton rouge.
- 399 It is just a small town that people pass through.
- 400 The police jury is crooked and corrupt. They demand kickbacks from any business that wants to come in. They are a group of buffoons and will go to jail. I also feel that this survey is way too biased and not written well.

Responses to the Question (Q10):

“Why do you think new businesses haven’t located in West Feliciana Parish?”

ID RESPONSE

- 1 Land is so expensive. There has been some opposition to larger chain stores.
- 2 I do not know that.
- 3 People don't want them.
- 4 We only have 5,000 residents.
- 5 We don't have stores to buy shoes and clothes. We need a big shopping center.
- 6 The police jurors don't want big business here.
- 7 They have too few stores here. If they brought in Wal-Mart and shopping stores, it would affect the smaller stores, but it would make more variety of stores to shop at.
- 8 That would be because they give them a hard time. People are trapped into buying from small businesses.
- 9 Everybody wants no changing.
- 10 Some of the residents have fought against business coming in.
- 11 I have no idea.
- 12 They haven't located in west Feliciana parish to keep the small businesses in operation and also their unique way of living.
- 13 Too many big businesses don't want to be here. They want to keep it a small town.
- 14 If we had lower taxes, then it would be a good community to do business in, and it is probably cheaper to locate there.
- 15 West Feliciana parish has a low population, difficult terrain, and little access to the river and other traffic freeways.
- 16 That would be because of the dumb historical thing. I live in the historical district, and it is a joke. They have a few old houses here and they won't let us do anything. It really is a joke. If they could only go to north Carolina and see the historical places, it would be better. I had nine yards of bull putting up a fence.
- 17 A lot of land has been owned by families for generations and they are very opposed to change.
- 18 I am not sure why there aren't any.
- 19 I don't think we are trying to get them here.
- 20 This is a bedroom community.
- 21 Taxes are too high. They are higher here than in baton rouge.
- 22 It has to do with something else besides tourism.
- 23 They resist change. Like for big box stores, they don't want those here. They want it to remain like a small town.
- 24 We have an aristocratic black system that shoots things down. For most of the things we get, people shoot those down. Even our new bridge, they tried to change it but nothing remained. A bunch of people think they can run things and ruin it for the rest of us.
- 25 I don't know.
- 26 It is because of politics. Everyone says that politics are so awful that they are moving out of here. You can't even buy a piece of property that zones in a certain way without getting special permission. It's very commercial. The politics are unbelievable. They have voted themselves to double their pay.
- 27 It is because of the value of the property and the cost of it.
- 28 It is probably because of the historical fighting.
- 29 There is nothing to offer.

SMOR 3133

Responses to the Question (Q10):

“Why do you think new businesses haven’t located in West Feliciana Parish?” (continued)

ID RESPONSE

- 30 It is because of the police jury, rules, and regulations of a small town that has a history of a small number of people running the town and not letting anything come into this town.
- 31 It is somewhat isolated. The bridge should help. There are longtime residents who are somewhat resistant to change.
- 32 They do not do a really good job of attracting people and businesses to come here to west Feliciana.
- 33 A lot of the land is not available.
- 34 We are too close to baton rouge.
- 35 There are some people here who don't want them to come.
- 36 There are some people who are against having business, like Wal-Mart coming in. We don't want to see the small business that we've supported all these years closed.
- 37 This is an old property. A lot of the older families still own the old property.
- 38 The new four lane highway construction slows down the traffic.
- 39 It is because of all of the crooks in office.
- 40 I don't know.
- 41 It is because of the land prices and values.
- 42 We don't have a leaver market to draw from.
- 43 The road construction has been a pain in the ass for so long.
- 44 We're really not that big of a town.
- 45 The housing cost is pretty high.
- 46 I don't know.
- 47 I don't know.
- 48 There are not a lot of people who want it.
- 49 There are a lot of business that can't come. A lot of people don't want to see the parish grow.
- 50 It's a small town. They don't care for larger businesses here.
- 51 There is no infrastructure.
- 52 They should have more employees.
- 53 I have no idea.
- 54 There is too much opposition from the older residents. They don't want change.
- 55 Every time someone tries, someone else puts a roadblock in the way.
- 56 There are too many personal owners of businesses, and that doesn't attract people.
- 57 They are trying to keep out whoever they can keep out, so there won't be crimes. There are a lot of crimes in baton rouge. I do my big shopping in baton rouge. There are more people down there who can be robbed and stuff. If those people come up here, there will be more crimes and everything.
- 58 I don't know.
- 59 People don't want any new businesses.
- 60 I don't know.
- 61 The people, voters, and police jurors are the ones who decide what businesses should come to the parish.
- 62 They need to use the parish as a tourist place.
- 63 They have a hard time because the historical society will block them.
- 64 There are no incentives, and a fraction of the town wants to keep it undeveloped. They are the ones in authority and with positions.

Responses to the Question (Q10):

“Why do you think new businesses haven’t located in West Feliciana Parish?” (continued)

ID RESPONSE

- 65 It would be the lack of infrastructure, like the lack of roads in the parish.
66 It could be the cost of property.
67 The economy would not let anybody do that.
68 I wouldn't know the reason why.
69 It would be the attitude of the people.
70 It would be the local politics.
71 It would be on the count of the policy jury because we have a rotten jury.
72 I do not know why.
73 It is not really a big parish.
74 The economy is on the decrease nationwide, so until the economy recovers, there would not be any new businesses relocating.
75 They have not been the right kind of businesses, and the residents have voted them out.
76 We didn't give them enough tax breaks.
77 I have no idea.
78 There is not enough population to support the businesses.
79 All the people in the small town are scared if the big businesses will come out because it will knock them out of business.
80 The powers that be will not allow new businesses to come to the parish.
81 All the money is stepping out of the parish, and they want the people making money to keep making money here. They don't want big places like Wal-Mart. It is a monopoly right now because one person owns all the stores already. If you go to one store to look at the price of ground beef, then it is going to be the same price at the store across the street.
82 It is historical, and some people don't want things to change. It is kind of anti-development.
83 There are not enough people and roads here. All the roads have been under construction for a few years now.
84 They have tried, but the police jury and the historical society do not want big stores here. They do not want anything that they do not consider as attractive or a tourist type of plant here. You look at Williamsburg and other places, and they manage to have those places, so I think we can do too. We lose a lot of tax dollars because people do not do much shopping in town. The small stores, like the mom-and-pop stores, serve a purpose and do what they need to do. They will be just fine with the other bigger stores here as well. They will be okay if they just keep doing what they are doing. The people of this parish need more stores though.
85 They do not shop locally.
86 It would be due to an unstable government.
87 There are a lot of properties being owned, and they attempt to keep the growth down.
88 The plantation do not want new business. They prefer this charming rural setting and will try to maintain this historic look. They are doing it at the expense of the low income residents.
89 They will meet resistance.
90 It would be the workforce because not enough people are willing to work.
91 The parish has too many restrictions.
92 It would be the location.
93 The property is too expensive.

Responses to the Question (Q10):

“Why do you think new businesses haven’t located in West Feliciana Parish?” (continued)

ID RESPONSE

- 94 The small town's historic atmosphere is significant. It is the major financial contributor to the parish, and tourism will decrease if people will increase.
- 95 Some of the residents here don't want new people coming in.
- 96 It is still considered a small town. We haven't had a McDonald's for very long. The church is part of a gas station, and we have three or four restaurants and quite a few bed-and-breakfast. My honest opinion is that the police jury should take a pay cut and put it back in the fund. They are not the brightest candles in the box, and people would call California and give themselves a raise. We do not have the revenue for that. They need to get a new police jury because they do not have our best interests in mind.
- 97 It is so clannish because the people here don't want outsiders to come in.
- 98 I have no idea.
- 99 It would have to do with the location.
- 100 It is a clique. The people don't want the new businesses coming in.
- 101 They consider it a historical society.
- 102 I don't know the reason.
- 103 They won't allow it.
- 104 New businesses haven't located in west Feliciana parish because of the lack of infrastructure and housing.
- 105 It is too difficult for them to get here. There is too much red tape.
- 106 We have made it too difficult and have sort of shut our doors for them. We haven't been very user-friendly.
- 107 Each and every time they attempt to do so, there is unavailability of affordable land. Some of the businesses have been resisted by residents.
- 108 That would be because of the location and high property value.
- 109 They have not been approached in a proper manner. We had a community development foundation that was supposed to be our development vehicle, and they did absolutely nothing. They got lots of money for years. There were lots of businesses that almost came here, but they didn't because they weren't handled properly.
- 110 I have no idea why they haven't located.
- 111 That is something that can be solved by the freeway.
- 112 We don't need them.
- 113 The reason would be the location.
- 114 All of our population is in St. Francisville, which is only the city. We don't have a lot of small communities to support anything.
- 115 Zoning restrictions is a big part of it.
- 116 Nothing is expanding right now. The Obama administration is stagnating the economy.
- 117 I do not know.
- 118 I am not sure that they haven't. We've just started up a new paper mill that created 200 jobs. There is also a new hotel and restaurant.
- 119 It would be the district and everything else. They have their things but they are out of the city limits.
- 120 The historical society makes it very hard for them to get in.
- 121 It is a small town.
- 122 Affordable housing is a problem. There are uncooperative regulators.
- 123 It is so far out away from everything.

Responses to the Question (Q10):

“Why do you think new businesses haven’t located in West Feliciana Parish?” (continued)

ID RESPONSE

- 124 It is not about that, but it is a good question. I really don't know but we could have more effort on going out and getting them.
- 125 That would be because of the historical society. They have a tendency to raise all heck when somebody tries to bring something new in.
- 126 The reason would be lack of economic leadership.
- 127 That would be because of our police duty. The behavior of our police officers is a laughing stock.
- 128 The community makes it too difficult for them to set up shop.
- 129 The population isn't such for expenditures and there is not enough population for them to come here.
- 130 We have really good schools but for other things, like shopping for kids, I don't think we have a lot of those things. When people are thinking about bringing families into the area, they look at the schools, but they want other things. Our housing is expensive. That is what people tell me. It has gone up since we moved here.
- 131 It is such a rural area. I don't know if we will attract them because of that.
- 132 I'm not going to say that they haven't done so. They have just built a new hotel. I was told that waffle house is coming into town and also an auto parts place. I didn't know businesses are here, but I know the hotel is almost finished.
- 133 It is very hard to get businesses because of all the rules. They don't want big box stores and others.
- 134 They are a bunch of old people.
- 135 I am not sure about that.
- 136 There are no people here to support an industry, and there is no support for infrastructure.
- 137 I have no idea.
- 138 There is no entertainment here.
- 139 We are kind of out of the way.
- 140 The land prices are too high, and without any businesses, the people would not come.
- 141 I really don't know.
- 142 I do not know.
- 143 It would be due to the inflated property value.
- 144 They are not allowed to come to west Feliciana parish because the older residents do not want to change anything.
- 145 They have not allowed it.
- 146 Our police jury and planning committee are making it very difficult, and the land prices are inflated. There is not much supply of affordable property available.
- 147 There is not much other industry here.
- 148 The police jury will not do anything to get new businesses. They want it to stay as it is.
- 149 It would have to do with the property values. They have to find property to build their business on.
- 150 The old regiment areas have been against any changes.
- 151 I do not know the reason why.
- 152 I am not really sure.
- 153 I do not know.
- 154 It would depend on the kind of business and the size of the population.
- 155 The parish do not want to change and to have new progress.

Responses to the Question (Q10):

“Why do you think new businesses haven’t located in West Feliciana Parish?” (continued)

ID RESPONSE

- 156 The local people who have been around here so long do not want it. They want the historic sites. Those places can stay, but we need the growth.
- 157 From years back, the people who were here were in control of the property. So many of our people say that when the paper mill was built in the 60's, no one could buy any property, so they moved. Now that the property has changed hands and another generation has taken over, they are willing to sell the land, but the prices are so inflated. Most people are not able to buy it, and we are just living out of our means now.
- 158 The people don't want the parish to get too big.
- 159 It could be due to the demographics of the population. Awhile ago, there was some controversy about Wal-Mart.
- 160 We do not have a very strong community development foundation. We do not promote ourselves very well and have a very poor performing police jury that governs the parish that needs to change. The police jury needs to be changed.
- 161 They have a poor parish administration.
- 162 Some have and some will. More businesses will come once the bridge and roads are finished.
- 163 I really don't know.
- 164 The people wouldn't have to go out of town and could do what they wanted to do, like buy stuff.
- 165 We are not having a bridge that connects to other places.
- 166 I cannot answer that one.
- 167 The upper class people don't want them here.
- 168 I really don't know.
- 169 I don't know.
- 170 There is a lack of skilled labor. Also, the parish has not targeted businesses that would be receptive. Instead of hitting home runs, they hit singles and doubles and go for the smaller mid sized businesses as opposed to getting larger plants. As long as we have the government, the police jury and the parish manager in place, there will be a lack of progress and development, and you could take that to the bank.
- 171 It is because of our local government.
- 172 It is too far away from baton rouge. Travel is hard, but with the new bridge, they might start.
- 173 It is due to the attitude of some of the community leaders.
- 174 They haven't been encouraged to.
- 175 They have not located because of the amount of people that are here.
- 176 We don't want some businesses. We don't want the big box stores. A lot of people don't want them.
- 177 Our property values are pretty high.
- 178 There is a lack of a concrete comprehensive plan and proper restrictions.
- 179 I can probably give you three good reasons. Parish journey is not wanting to communicate or deal with any new business, more taxes and conveniences for people, and Wal-Mart. The property here is not available to sell at any reasonable price. I don't think people see much happening to come here and start devolving.
- 180 We lack some infrastructure. They have not been pursued.

SMOR 3133

Responses to the Question (Q10):

“Why do you think new businesses haven’t located in West Feliciana Parish?” (continued)

ID RESPONSE

- 181 A lot of it is because of the restrictions that are placed on business by the existing zoning ordinances.
- 182 Dumb politicians are only in it for themselves and no one else. If they can't make any money, then they won't do it.
- 183 There is the unwillingness of landowners to sell, the disarray of the governing bodies, and the lack of growth plan.
- 184 It is a poorly managed parish. The government is corrupt.
- 185 There is probably nowhere to put them.
- 186 I have no idea.
- 187 It is because of the police jury.
- 188 They won't allow them to come in. A lot of whites want to keep it in the family.
- 189 They are not attractive to new business. The representatives for this area and this parish should get off of their butts, out of the old-fashioned ways and into the new world. They have to bring in new jobs and stimulate our economy here in this area.
- 190 Some of the people want everything to remain the same.
- 191 People are afraid of losing the small town way of life.
- 192 That would be with the action of the police jury.
- 193 I do not know that we have offered all the incentives, tax cuts or tax breaks to make it so that there are suitable and affordable properties.
- 194 It has not been made available to them.
- 195 The old guard is hesitant to have new businesses come in. They do not want to change the status quo.
- 196 They make it hard for businesses to locate here. They want to keep it a small town. Until they are willing to open up, the revenues will stay the same.
- 197 All the blue bloods did not want them there. For every time they get someone interested, they find a way for them to not be here.
- 198 The local government is stuck in the dark ages. There is an old-school mentality about keeping businesses down and out.
- 199 The new businesses have not come to Feliciana because of the population growth.
- 200 They have not located here because of the push back they get from these blue blood hillbillies here. They lost the war and need to get over it. They are consistently shooting themselves in the foot pushing away Wal-Mart. From having moved here from outside, it drives us bananas. We did not want to go to Zachary, though.
- 201 That would be because of the police.
- 202 That would possibly be because of the high tax, like the home owner's tax. The taxes we pay are not proportionate to equivalent homes in other areas. We are taxed way more than everybody else.
- 203 We have not given them the opportunity to get in.
- 204 I don't know.
- 205 The older people don't want to change the city.
- 206 I don't know.
- 207 It is because of the smaller businesses like the tourist in Francisville. That one grocery store is owned by one person. If we will get a Wal-Mart, it will cut his business. It can possibly put them out of business.

SMOR 3133

Responses to the Question (Q10):

“Why do you think new businesses haven’t located in West Feliciana Parish?” (continued)

ID **RESPONSE**

- 208 They told us that this parish is historical. They don't want them to touch the history of it.
It is the only way to increase the businesses and the number of residents.
- 209 It is because of a few businesses that we have. We don't want to have new businesses
here.
- 210 It is probably because of the people in the parish and its history.
- 211 I don't know.
- 212 The owners of the school board control everything. They don't want the new businesses to
come in.
- 213 I don't know.
- 214 The people who should have something to do don't have anything to do. They aren't doing
anything.
- 215 The blue bloods keep on fighting it.
- 216 The four lane highway and the bridge are going to help once they are finished. Without
them, the commute is way too long.
- 217 There isn't enough advertising.
- 218 It makes more sense to have a business in a big city like baton rouge. We came here
because it is a small town.
- 219 I have no idea.
- 220 The economic decisions that were made slowed down the growth of the parish.
- 221 The historical society won't let them. They want to keep it how it is.
- 222 They discourage the businesses.
- 223 The police jury doesn't let the people in. It has to be voted on. They seem to not want it.
- 224 It is mainly because of the license issue. There are certain people who fight the new
businesses coming in.
- 225 There are no new businesses and no growth.
- 226 Our historical society won't let the new businesses come here. They are the ones in charge
of preserving the history of the plantations around the parish.
- 227 It is due to the way our political system is. They won't let them bring anything in.
- 228 It is because of the old style of thinking. The founding families of this place don't want it
to change.
- 229 We have had our chances, but some people believe it is destroying the historical
ambiance of the town. There is also the issue of not having enough water and such.
- 230 The whole town is old.
- 231 It is probably because they have been held out.
- 232 West Feliciana parish has not been promoted enough.
- 233 It is difficult to do business here because of all the rules and regulations. The parish does
not help people start their businesses. There are too many factors involved.
- 234 Politics won't let them come in.
- 235 I am not sure, but whatever it is, I would be for it.
- 236 It is such a small town, and there are not a lot of businesses here. That is probably why
they are not coming here.
- 237 I don't know the answer to that.
- 238 The larger businesses haven't been able to get in because the residents are trying to keep it
a small, historical type of town. We are probably fighting it. We don't want Wal-Mart.
- 239 The economy is bad.

Responses to the Question (Q10):

“Why do you think new businesses haven’t located in West Feliciana Parish?” (continued)

ID **RESPONSE**

- 240 It is probably because the people aren't selling lands. They have nowhere to go.
- 241 There are lands, but I don't think that a lot of people are welcoming the new businesses to build here.
- 242 The tourist attraction level is low.
- 243 It is the decision of the police jury.
- 244 I haven't thought about it.
- 245 It is probably because the parish or St. Francisville wants to keep it a small town. They want to keep a quiet atmosphere.
- 246 It is too small for them. We have an uneducated workforce.
- 247 We have some ignorant people living in here. The town is stuck in the 50s.
- 248 Honestly, it is because of the small businesses. They don't want the larger businesses or corporations to come in.
- 249 It is due to not having enough commercial properties and Internet technologies.
- 250 The zoning laws are too strict here.
- 251 The old people want to keep the beauty, but they also want the money. It isn't possible.
- 252 A lot of people don't want them to come. They are trying to keep out a lot of crimes.
- 253 It is possibly because of the bridge. The people who live here have kept the new businesses from coming in because they thought that they would hurt the businesses that are here now. The two big stores that we have are owned by a family here, so they haven't let any other stores in.
- 254 We have too many people who want to be the bosses. There are more people who worry about the look of the parish.
- 255 There is probably not enough traffic and population.
- 256 It is because of the older people who live here. They want the town to stay the same.
- 257 There is a group of people who don't want any businesses here.
- 258 The residents and the businesses don't want them here.
- 259 I do not know.
- 260 The police jury would not let them in. They say it is because it will hurt the little businesses that we have here already.
- 261 I do not know.
- 262 We have too many big landowners who do not want to let lose of their land. There are too many ordinances that do not allow anyone to build anything.
- 263 I do not know exactly. It has something to do with the mayor and the overall development committee of the parish.
- 264 Actually, new businesses have located in west Feliciana parish.
- 265 They just do not want them here. That is why. They have tried to come in but they would not let them like Wal-Mart. That is wrong.
- 266 The large landowners are resistant in breaking up and selling their properties.
- 267 The parish is growing. We need more job opportunities.
- 268 The old white people do not want new businesses to come here.
- 269 It is too difficult to get through the approval process.
- 270 I do not know.
- 271 They fight them at every corner every time they try to open here. We give them no incentives to open a business here.

Responses to the Question (Q10):

“Why do you think new businesses haven’t located in West Feliciana Parish?” (continued)

ID RESPONSE

- 272 We have an old group of people who are mostly white. They are trying to keep anything new out of the parish. They do not want change.
- 273 There is nothing to attract them.
- 274 The parish has not worked for them to come here. They have tried to come, but the parish said no.
- 275 We are not located in a metropolitan area. We are 45 minutes away from the next major city which would be baton rouge. The taxes are too high. They should have tax breaks for new businesses.
- 276 Landowners would not let go of the land for economic growth.
- 277 There are not a lot of residents or activities here. There is not too much traffic.
- 278 We do not have enough people here for new businesses to come in.
- 279 We have a poor parish government.
- 280 It is such a small town.
- 281 There are not enough businesses here.
- 282 I really have no idea why.
- 283 It has a population of under 10,000 people. The economy has been decreasing. There would be no reason to locate here.
- 284 I really do not have an answer for that. I am hoping that the new bridge and bowling lane will bring more businesses and development.
- 285 It is a difficult process. People do not welcome new businesses here. It is a very closed community.
- 286 The planning and zoning commission do not want anything new. We have old-school people in the parish who want to run the place.
- 287 I have no idea.
- 288 I think it is because of small town politics. It is just a small town where they do not want new things in. There is one person who owns both of the grocery stores here.
- 289 The police jury has no plan for economic development. There is also too much reliance on tourism.
- 290 There is not enough land for sale, and the land that is for sale is overpriced.
- 291 They will not let them in here. The older people do not want a change.
- 292 I do not know.
- 293 It is because of the lack of space to build.
- 294 It is because of the people.
- 295 Property values are over inflated. It is also because of nonavailability of property or land.
- 296 It is maybe because it is so small.
- 297 It is a rule of passion. There is really no railroad service here. We only have two stores here that can charge whatever they want to. It is like they do not have any competition. I think it is one family that owns both stores. It is like the gas stations. There is probably a \$0.02 difference between their prices.
- 298 It is because of the road. Now, they are opening it up. We might change. We are just a small community.
- 299 I do not think they have the structure for it as far as areas to build are concerned. I do not think there is developed land for them.
- 300 It is sparsely populated. There are very few services. There is status quo. The people are resistant to any growth.

SMOR 3133

Responses to the Question (Q10):

“Why do you think new businesses haven’t located in West Feliciana Parish?” (continued)

ID **RESPONSE**

- 301 Parish officials will not allow it.
- 302 It is because of the workforce, high property taxes, and too many regulations on historical conditions.
- 303 We do not attract new businesses because the people who live up here fight everything. They do not want any new growth up here.
- 304 There is too much resistance.
- 305 I do not think they have a lot of infrastructure. The number of residents in the local area are not as high as in other places. The people who formerly overran the parish kept a lot of them from coming in. A number of things has been done to discourage new members. Until the new highway is completed, there will not be enough traffic to support it.
- 306 In some cases, they were asked not to. I went to a meeting, and Wal-Mart was asked not to. Once you have one business that is not invited, other business do not want to come.
- 307 I really do not think anybody has gone out to sell anybody the idea of bringing in businesses. There has not been a real effort to bring in businesses except for tourism.
- 308 People don't want them here.
- 309 There are not enough people.
- 310 It is because the economic development system hasn't worked. They have to bring in new commerce.
- 311 It is probably because they don't want to interfere with the historic district downtown.
- 312 Most of the people who live there have owned that land forever, so they don't want any development coming in and destroying the heritage of the town.
- 313 It is because of the lack of support. The parish is growing, but it takes time when things are growing to catch up. It is important to have adequate planning because this is a small parish with old politics. That affects if businesses want to come here or not.
- 314 They are not wanted by the older residents.
- 315 It is somewhat because of the attitude of some of our citizens. They want it to stay the same as it was 50 years ago.
- 316 It is probably because of the price of land, buildings and everything else up there.
- 317 There are not that many people here.
- 318 It is because of the small number of residents.
- 319 It is because of the approximate location to baton rouge. Otherwise, I don't really know.
- 320 It is because of the population and building restrictions.
- 321 The economy is depressed.
- 322 It is because of the economic development that was in place. They were managing the economic development, but they did not do a good job of marketing the parish.
- 323 The because of housing.
- 324 The demographics of the parish is not conducive to open a business. The total population couldn't support that kind of thing.
- 325 We have someone in town who won't let them come in. They will lose control of the town if they do come in.
- 326 It is because the cost of property.
- 327 The parish doesn't want that kind of growth. We do have McDonald's, etcetera. We depend on the local pharmacy. It closes at 6pm. We need one that could stay open until 10pm. I feel that people here are against big business like super Wal-Mart or target.
- 328 It is too rural and is too far away from the city.

Responses to the Question (Q10):

“Why do you think new businesses haven’t located in West Feliciana Parish?” (continued)

ID **RESPONSE**

- 329 They are unaware of the attractiveness of our parish. Our parish government is too concerned with incising and not concerned enough about proactive economic development.
- 330 The reason would be the price of property.
- 331 It is a small town.
- 332 It is too rural.
- 333 There is nothing here, like no work force. There is nothing to attract people to come here.
- 334 We don't welcome them. We turn down a Wal-Mart. It is a big revenue builder. They don't do anything to make the population grow.
- 335 There is not much of infrastructure. There is a long way from anything.
- 336 They are not wanted.
- 337 I have no idea.
- 338 The present police jury has not done enough infrastructure improvement for them to come in. The people do not want it also. When people are going to open a business for millions of dollars, they certainly do not want any opposition.
- 339 It could be due to the distance from here to baton rouge.
- 340 It would be the lack of economic incentive. It has a small population. It has been discouraged by our population and by the preacher. We haven't had any aggressive efforts to develop and have had resistance. West Feliciana is composed of several large land owners who control the real estate in the area, and they don't want to break up their pieces of land. Their land was historically held by their family, and they don't want to break it up.
- 341 All the old people live here, and all the small business owners don't want it.
- 342 Some people don't want business to come in and some want business to come in. It would help the parish if new business will come in.
- 343 We are a rural parish.
- 344 I don't know.
- 345 There is a very low stature of life, therefore they didn't get a lot of people to move here. They want people to be small. A lot of people around here want the place to get bigger. They don't know how sorry they would be if it happens. I had another residence before and they had these principles and everything in the parish. The taxes went high that you couldn't live there anymore. You couldn't ride the streets. They kept bumping each other all the time. That's why I am against the parish to grow too big, it's not to grow too tremendously. Let things be the way they used to be. Don't crowd the place up. Don't start doing many new homes. Up the commerce.
- 346 There is no labor force, no place to live.
- 347 The price of buying a home is so expensive.
- 348 It is because of the infrastructure, number of people that are here, and the roads.
- 349 You are probably talking to the wrong person but having served in the baton rouge chamber board for awhile, a part of it has to do with what companies are looking for in west Feliciana and how west Feliciana has been marketed. The port and business in the mill area need to offer something because there is no unique asset that makes it a salable asset.
- 350 They have never been pursued by the police jury and the town of St. Francisville. They need to get over the small town mindset and pursue new businesses.

Responses to the Question (Q10):

“Why do you think new businesses haven’t located in West Feliciana Parish?” (continued)

ID RESPONSE

- 351 They probably not had significant nucleus to spend new businesses historically.
- 352 We don't have households, or rooftops to support a lot of new business. We are a small rural community. It is probably because they don't test our local government. The police jury has to do with it too. They are disorganized and not efficient.
- 353 There are not enough people out here. They can't support the business they have. People today are going to shop where they can get the cheapest prices. We are small and the prices are high. We have to go out of the parish to get lower prices.
- 354 It is probably because of the lack of infrastructure and just the overall economic conditions in the united states.
- 355 It is because of attitudes I guess from the people who are ruling, the ruling residents.
- 356 In this parish, they have been keeping business out. They don't want Wal-Mart.
- 357 The reason they haven't is because of the cost of property to locate here. There is a lack of commercial property. A lot of a people don't want the parish to grow. They like the quiet community atmosphere that is here. It depends who wants the parish to grow. If there is a certain population that wants it to happen or there is a certain population to come here, it will come here. I think we have a problem with signing people for work. It is a lack of employment. I have noticed several places that you go in one day and the next, there are different people. There are not enough incentives to keep people to work. The ones who do work don't work for very long.
- 358 These people in west Feliciana parish don't want any more businesses in here.
- 359 I don't think there is enough middle class population here. The police jury doesn't know what they are doing. It is also about the politics of this parish. We don't have people who know what is going on or how solve our problems.
- 360 We didn't want them to. We didn't want to grow.
- 361 They find better places to put them. I don't really know. I don't get around too much.
- 362 The people in town vote to keep the town the way it is.
- 363 We have old businesses that don't do well. We need some new business like Wal-Mart.
- 364 Some of the old people are so against any kind of modernization. They have given up. We have a historical society that has fought any kind of progress.
- 365 It is because they are stupid. They want to keep us back in the 1800s.
- 366 The mom and pop stores block other businesses from coming in.
- 367 It is because of taxes.
- 368 I don't think the parish is competently run. People can see that whenever they go to the police justice meetings. It is very obvious that it is a very poorly run parish.
- 369 The people are not very receptive. They have the attitude, don't mess up our beautiful place.
- 370 It is a quiet little town. They are looking for more action I guess.
- 371 It is because of the historical value of the town. People didn't want it. They thought it would lower the value of our town. They think it would lower the history with the big box businesses taking up all the space.
- 372 West Feliciana doesn't want to change. St. Francisville doesn't want the parish to change. They want it to stay as a quaint little village.
- 373 I really don't have any idea.
- 374 The demography is low. We need to increase the number of people living here.

Responses to the Question (Q10):

“Why do you think new businesses haven’t located in West Feliciana Parish?” (continued)

ID **RESPONSE**

- 375 We are landlocked here with no railroad services and ports. The location of the parish is landlocked.
- 376 The reason for that is politics.
- 377 The new businesses are skeptical to locate due to the volume of businesses here. A lot of businesses are opening and closing because of it. When the new bridge opens, it will help the volume. The taxation structure with the legislation is also not helping. I would be skeptical to open a business because of the taxes.
- 378 There aren't enough skilled workers.
- 379 It seems like the same people try and do the same things like opening the same type of business. There is nothing new.
- 380 It has something to do with the people's attitude. They don't want new people.
- 381 It has something to do with a group of people. They are called the historians. They have a lot to say about what is happening in the parish and what would come.
- 382 There isn't enough infrastructure. It is very expensive to build here.
- 383 We have such a limited population.
- 384 Depending on what type of business, there aren't a lot of customer based attractions. They shouldn't change the demographic layout at all.
- 385 I don't think we have a qualified workforce in the parish.
- 386 The taxes are too high.
- 387 There is lack of workforce. They aren't educated enough.
- 388 Having improved roads and the infrastructure that is needed for new businesses to develop would help.
- 389 The dominant white people don't want to change. They are redundant to change.
- 390 West Feliciana does not have the talent to support new businesses.
- 391 We don't have the people. Once they are here, it would be expensive to live here. We also don't have a good transportation and it hurts this area. We aren't big enough to have means of transportation.
- 392 We have had businesses that didn't last long. We also have new businesses that have stayed, so I don't know why they aren't coming to west Feliciana.
- 393 I don't think that the atmosphere is very friendly for businesses.
- 394 It is hard to make a business work and make profit from it. There is lack of local support.
- 395 I don't know. They probably don't want to come here.
- 396 They are thinking that it is going to knock down the rest of the stores, and that they won't have any business if Wal-Mart comes in.
- 397 They don't have a committee to encourage businesses to move in.
- 398 This is a residential area. Businesses need to stay in baton rouge.
- 399 It is just a small town that people pass through.
- 400 The police jury is crooked and corrupt. They demand kickbacks from any business that wants to come in. They are a group of buffoons and will go to jail. I also feel that this survey is way too biased and not written well.
